SUBJECT INDEX

NOTE: Abstract Index follows Author Index

A

Abducens nerve
Distinguishing compensatory head turn from gaze palsy in children with unilateral oculomotor or abducens nerve paresis (letter), 116

***Acanthamoeba* sp.**
Combined treatment of *Acanthamoeba* keratitis with propamidine, neomycin, and polyhexamethylene biguanide, 466

Accommodation
A biometric study of ocular changes during accommodation, 76

A biometric study of ocular changes during accommodation (correspondence), 682

Acetazolamide
Transient myopia, angle-closure glaucoma, and choroidal detachment after oral acetazolamide (letter), 813

Acquired immunodeficiency syndrome
Correlation between CD4+ counts and prevalence of cytomegalovirus retinitis and human immunodeficiency virus-related noninfectious retinal vasculopathy in patients with acquired immunodeficiency syndrome, 575

Glove perforations in ophthalmic surgery (correspondence), 266

Intravitreal foscarnet for cytomegalovirus retinitis in a patient with acquired immunodeficiency syndrome (correspondence), 686

Pathologic features and immunofluorescent antibody demonstration of ocular microsporidiosis (*Encephalitozoon hellem*) in seven patients with acquired immunodeficiency syndrome, 285

Progressive ocular toxoplasmosis in patients with acquired immunodeficiency syndrome, 742

Spontaneous ulcerative keratitis in immunocompromised patients, 202

Treatment of microsporidial keratoconjunctivitis with topical fumagillin, 293

Afferent pupillary defect
The relationship between static perimetry and the relative afferent pupillary defect, 351

Aging
Age-related macular degeneration and choroidal neovascularization, 786

***Alcaligenes* sp.**
Alcaligenes faecalis corneal ulcer in a patient with cicatricial pemphigoid (letter), 255

Alström's syndrome
Longitudinal study of the early electroretinographic changes in Alström's syndrome, 657

Altitude
Refractive changes with increasing altitude after radial keratotomy (letter), 821

Amikacin
Effects of inflammation and surgery on amikacin levels in the vitreous cavity, 770

Angiography
Fluorescein and indocyanine green angiographies of central serous choroidopathy by scanning laser ophthalmoscopy, 50

Angle-closure glaucoma
Argon laser gonioplasty in the treatment of angle-closure glaucoma (correspondence), 399

Follow-up of angle-closure glaucoma suspects, 338

Transient myopia, angle-closure glaucoma, and choroidal detachment after oral acetazolamide (letter), 813

Aniridia
Results of penetrating keratoplasty in aniridia, 317

Antibiotic
Comparison of topical ciprofloxacin to conventional antibiotic therapy in the treatment of ulcerative keratitis, 471

Systemic antibiotic therapy for relapsing *Haemophilus influenzae* conjunctivitis (letter), 814

Antibody
Visual loss complicating OKT3 monoclonal antibody therapy, 781

Antigen
HLA-A29 as a potential risk factor for nonarteritic anterior ischemic optic neuropathy (letter), 540

Visual loss complicating OKT3 monoclonal antibody therapy, 781

Aqueous humor
Aqueous humor protein and intraocular lens powers (letter), 116

Effect of desmopressin on aqueous humor flow in humans, 511

The penetration of oral ciprofloxacin into the aqueous humor, vitreous, and subretinal fluid of humans, 623

Photoreceptor outer segments in the aqueous humor of patients with atopic dermatitis and retinal detachment, 21

Artery
Hyperhomocysteinemia in retinal artery and retinal vein occlusion, 162

Transesophageal echocardiography in the diagnosis of branch retinal artery obstruction, 653

Velocity of ophthalmic arterial flow recorded by Doppler ultrasound in normal subjects, 174

Astigmatism
Postkeratoplasty astigmatism with single running suture or interrupted sutures, 715

Atrophy
Parapapillary chorioretinal atrophy in normal-pressure glaucoma, 501

B

Behçet's disease
Serum levels of interleukin-2 receptor in ocular Behçet's disease, 26

Biometry
Accurate ultrasonic biometry in pseudophakia (letter), 536

Birdshot chorioretinopathy
Birdshot chorioretinopathy and Lyme borreliosis, 149

Blepharoptosis
Early revision in the office for adults after unsatisfactory blepharoptosis correction, 68

Books and Computer Software
Adler's Physiology of the Eye, ed. 9, by Hart, W. M., Jr. (ed.), 130

Advances in Vitreoretinal Surgery. ACTA of the Third International Congress on Vitreoretinal Surgery, by Stirpe, M. (ed.), 830

Age-Related Macular Degeneration. Principles and Practice., by Hampton, G. R., and Nelson, P. T. (eds.), 130

Allergy and Immunology of the Eye, ed. 2, by Friedlaender, M. H., 549

The Senescence of Human Vision, by Weale, R. A., 273

Surgical Anatomy of the Face, by Larrabee, W. F., Jr., and Makielski K. H., 831

Surgical Management of Strabismus. An Atlas of Strabismus Surgery, ed. 4, by Helveston, E. M., 690

Ultrasound of the Eye and Orbit, by Byrne, S. F., and Green, R. L., 405

Brown-McLean syndrome

Clinical findings in Brown-McLean syndrome, 729

C

Calcium channel blocker

Calcium channel blockers in the management of low-tension and open-angle glaucoma, 608

Canaliculitis

Eikenella corrodens canaliculitis (letter), 823

***Candida* sp.**

Bacterial and fungal endophthalmitis after penetrating keratoplasty, 309

Bacterial and fungal endophthalmitis after penetrating keratoplasty—correction (correspondence), 548

Cannula

An illuminated cannula for subretinal operations (letter), 816

Capsule

Management of the posterior capsule during pediatric intraocular lens implantation, 722

The outgrowth of lens epithelial cells onto the anterior capsule after intraocular lens implantation (letter), 668

Carcinoma

Metastatic renal cell carcinoma manifesting as an orbital mass (letter), 542

Orbital metastasis from medullary carcinoma of the thyroid (letter), 394

Tricholemmal carcinoma of the eyelid (letter), 118

Cataract

Another reevaluation of combined cataract and glaucoma surgery, 806

Anterior hyaloidal fibrovascular proliferation after extracapsular cataract extraction in diabetic eyes, 321

Causes of reduced visual acuity on long-term follow-up after cataract extraction in patients with uveitis and juvenile rheumatoid arthritis (correspondence), 682

Causes of reduced visual acuity on long-term follow-up after cataract extraction in patients with uveitis and juvenile rheumatoid arthritis (correspondence), 826

The influence of patient-related variables in the timing of cataract extraction, 614

Intraocular lens power calculations for multifocal intraocular lenses (correspondence), 269

The outgrowth of lens epithelial cells onto the anterior capsule after intraocular lens implantation (letter), 668

The penetration of oral ciprofloxacin into the aqueous humor, vitreous, and subretinal fluid of humans, 623

Progression of nonproliferative diabetic retinopathy and visual outcome after extracapsular cataract extraction and intraocular lens implantation (correspondence), 268

Progression of nonproliferative diabetic retinopathy and visual outcome after extracapsular cataract extraction and intraocular lens implantation (correspondence), 400

Progression of nonproliferative diabetic retinopathy and visual outcome after extracapsular cataract extraction and intraocular lens implantation (correspondence), 824

Superior rectus muscle overaction after cataract extraction (correspondence), 126

Transient posterior subcapsular lens opacities in diabetes mellitus, 234

Central serous choroidopathy

Fluorescein and indocyanine green angiographies of central serous choroidopathy by scanning laser ophthalmoscopy, 50

Chiasm

Chiasmal compression from fat packing after transsphenoidal resection of intrasellar tumor in two patients, 368

Children

Comparison of time required for strabismus correction by using the microscope or loupes (letter), 672

Diffuse corneal clouding in siblings with fetal alcohol syndrome, 484

Distinguishing compensatory head turn from gaze palsy in children with unilateral oculomotor or abducens nerve paresis (letter), 116

Management of the posterior capsule during pediatric intraocular lens implantation, 722

Chloramphenicol

Blood dyscrasias and topical ophthalmic chloramphenicol (letter), 812

Cholesterol

Unesterified cholesterol in granular, lattice, and macular dystrophies (letter), 112

Chondrosarcoma

Neuro-ophthalmologic findings in chordoma and chondrosarcoma of the skull base, 97

Chordoma

Neuro-ophthalmologic findings in chordoma and chondrosarcoma of the skull base, 97

Chorioretinitis

Antibiotic-resistant tuberculous choroiditis (letter), 259

Choroid
Age-related macular degeneration and choroidal neovascularization, 786
Deoxyribonucleic acid ploidy studies in choroidal melanomas, 376
Indocyanine green choroidal videoangiography during induced intraocular hypertension (letter), 817
Interferon alfa-2a in the treatment of subfoveal choroidal neovascularization, 563
Massive spontaneous subretinal hemorrhage from a choroidal metastasis (letter), 677
Transient myopia, angle-closure glaucoma, and choroidal detachment after oral acetazolamide (letter), 813

Choroiditis
Antibiotic-resistant tuberculous choroiditis (letter), 259

Chromosome
Ophthalmic manifestations of the chromosome 11q deletion syndrome (letter), 673

Cicatricial pemphigoid
Alcaligenes faecalis corneal ulcer in a patient with cicatricial pemphigoid (letter), 255

Ciprofloxacin
Ciprofloxacin therapy of *Mycobacterium chelonae* keratitis (letter), 114
Ciprofloxacin-resistant bacterial keratitis (correspondence), 545
Comparison of topical ciprofloxacin to conventional antibiotic therapy in the treatment of ulcerative keratitis, 471
The penetration of oral ciprofloxacin into the aqueous humor, vitreous, and subretinal fluid of humans, 623

Circulation
The effect of pentoxifylline on retinal capillary blood flow velocity and whole blood viscosity, 775

***Cladosporium* sp.**
Fungal invasion of seven hydrophilic contact lenses, 460

Conjunctiva
Conjunctival biopsy in scleroderma and primary Sjögren's syndrome, 792
Effect of eye patching on ocular surface, 629
Immunohistopathologic features and therapy of conjunctival lichen planus, 494
Nucleolar organizer regions in determining malignancy of pigmented conjunctival lesions, 800
Orbital meningoencephalocele manifesting as a conjunctival mass, 46

Conjunctivitis
Meibomian gland function and giant papillary conjunctivitis (correspondence), 119
Meibomian gland function and giant papillary conjunctivitis (correspondence), 120
Systemic antibiotic therapy for relapsing *Haemophilus influenzae* conjunctivitis (letter), 814

Contact lens
Comparison of the clinical performance of the Acuvue disposable contact lens and CSI lens in patients with giant papillary conjunctivitis, 454
Corneal light scattering and visual performance in myopic individuals with spectacles, contact lenses, or excimer laser photorefractive keratectomy, 444
Fungal invasion of seven hydrophilic contact lenses, 460

Cornea
Alcaligenes faecalis corneal ulcer in a patient with cicatricial pemphigoid (letter), 255
Clinical and histopathologic changes in the host cornea after epikeratoplasty for keratoconus (correspondence), 121
Clinical findings in Brown-McLean syndrome, 729
Clinical follow-up of phototherapeutic keratectomy for treatment of corneal opacities, 433
Combination antibiotic supplementation of corneal storage medium, 299
Community care of corneal ulcers (correspondence), 402
A comparison of corneal endothelial changes after use of Healon or Viscoat during phacoemulsification, 188
Corneal endothelial cell counts after Molteno implantation, 93
Corneal epithelial changes after excimer laser photorefractive keratectomy, 441
Corneal light scattering and visual performance in myopic individuals with spectacles, contact lenses, or excimer laser photorefractive keratectomy, 444
Determination of corneal image-forming properties from corneal topography, 31
Determination of corneal image-forming properties from corneal topography (correspondence), 680
Diffuse corneal clouding in siblings with fetal alcohol syndrome, 484
The effect of corneal thickness on applanation tonometry, 592
Effect of eye patching on ocular surface, 629
Eosinophil granule major basic protein deposition in corneal ulcers associated with vernal keratoconjunctivitis, 640
Gelsolin immunoreactivity in corneal amyloid, wound healing, and macular and granular dystrophies, 644
Intraocular lens power calculations for multifocal intraocular lenses (correspondence), 269
Reduction of subepithelial haze after photorefractive keratectomy by cooling the cornea (letter), 820

Retrocorneal fibrous membranes in failed corneal grafts, 478

Unesterified cholesterol in granular, lattice, and macular dystrophies (letter), 112

Corrections
Bacterial and fungal endophthalmitis after penetrating keratoplasty—correction (correspondence), 548

The efficacy of optic nerve sheath decompression for anterior ischemic optic neuropathy and other optic neuropathies, 384; correction, 698

Regression of retinoblastoma after plaque radiotherapy, 181; correction, 842

Retinal detachment as a potential hazard in surgical correction of severe myopia with phakic anterior chamber lenses, 145; correction, 831

Corticosteroid
Therapy for ocular toxoplasmosis, 517

Cyclophotocoagulation
The influence of exposure duration in transscleral Nd:YAG laser cyclophotocoagulation (correspondence), 684

Cyclosporine
A masked, randomized, dose-response study between cyclosporine A and G in the treatment of sight-threatening uveitis of noninfectious origin, 583

Cytomegalovirus retinitis
Correlation between CD4+ counts and prevalence of cytomegalovirus retinitis and human immunodeficiency virus-related noninfectious retinal vasculopathy in patients with acquired immunodeficiency syndrome, 575

Intravitreal foscarnet for cytomegalovirus retinitis in a patient with acquired immunodeficiency syndrome (correspondence), 686

D

Dacryocystitis
Nasolacrimal duct obstruction and acute dacryocystitis associated with infectious mononucleosis Epstein-Barr virus (letter), 265

Dacryocystography
Gadolinium magnetic resonance imaging dacryocystography, 738

Dacryocystorhinostomy
Subcutaneous emphysema of the eyelids after dacryocystorhinostomy (letter), 671

Decompression
The efficacy of optic nerve sheath decompression for anterior ischemic optic neuropathy and other optic neuropathies, 384; correction, 698

Dermatochalasis
Dermatochalasis and dry eye, 216

Diabetes mellitus
Effect of insulin therapy on progression of retinopathy in noninsulin-dependent diabetes mellitus, 569

Transient posterior subcapsular lens opacities in diabetes mellitus, 234

Diabetic retinopathy
Anterior hyaloidal fibrovascular proliferation after extracapsular cataract extraction in diabetic eyes, 321

Infectious scleritis after a diabetic foot ulcer (letter), 254

Progression of nonproliferative diabetic retinopathy and visual outcome after extracapsular cataract extraction and intraocular lens implantation (correspondence), 268

Progression of nonproliferative diabetic retinopathy and visual outcome after extracapsular cataract extraction and intraocular lens implantation (correspondence), 400

Duane's retraction syndrome
Recession of both horizontal recti muscles in Duane's retraction syndrome with elevation and depression of the adducted eye (correspondence), 685

Dyscrasia
Blood dyscrasias and topical ophthalmic chloramphenicol (letter), 812

E

Echography
Echographic signs of perfluorodecalin (letter), 679

Edema
Clinical findings in Brown-McLean syndrome, 729

Retinal vasoconstriction after laser treatment for diabetic macular edema, 64

Unilateral optic disk edema and a contralateral temporal fossa mass (letter), 261

Editorials
Bradley R. Straatsma to edit THE JOURNAL (AABERG, T. M., BRUBAKER, R. F., NEWELL, F. W., NORTON, E. W. D., and SPIVEY, B. E.), 666

The correction of myopia with phakic intraocular lenses (WILSON, S. E.), 249

The history of the National Eye Institute (BLODI, F. C.), 420

The National Eye Institute: A quarter century of achievement (STRAATSMA, B. R.), 426

***Eikenella* sp.**
Eikenella corrodens canaliculitis (letter), 823

Orbital cellulitis caused by *Eikenella corrodens* (correspondence), 398

Emphysema
Subcutaneous emphysema of the eyelids after dacryocystorhinostomy (letter), 671

***Encephalitozoon* sp.**
Pathologic features and immunofluorescent antibody demonstration of ocular microsporidiosis (*Encephalitozoon hellem*) in seven patients with acquired immunodeficiency syndrome, 285

Treatment of microsporidial keratoconjunctivitis with topical fumagillin, 293

Endophthalmitis
Bacterial and fungal endophthalmitis after penetrating keratoplasty, 309

Bacterial and fungal endophthalmitis after penetrating keratoplasty—correction (correspondence), 548

Endophthalmitis caused by β-lactamase-positive *Moraxella nonliquefaciens* (letter), 674

Eosinophil
Eosinophil granule major basic protein deposition in corneal ulcers associated with vernal keratoconjunctivitis, 640

Epikeratoplasty
Clinical and histopathologic changes in the host cornea after epikeratoplasty for keratoconus (correspondence), 121

Epiphora
Rhabdomyosarcoma manifesting as acquired nasolacrimal duct obstruction, 239

Epstein-Barr virus
Nasolacrimal duct obstruction and acute dacryocystitis associated with infectious mononucleosis Epstein-Barr virus (letter), 265

Eyedrop
The effect of reduced eyedrop size and eyelid closure on the therapeutic index of phenylephrine, 357

Eyelid
Effect of eye patching on ocular surface, 629

The effect of reduced eyedrop size and eyelid closure on the therapeutic index of phenylephrine, 357

Eyelid involvement in acanthosis nigricans, 42

Subcutaneous emphysema of the eyelids after dacryocystorhinostomy (letter), 671

Tricholemmal carcinoma of the eyelid (letter), 118

F

Fetal alcohol syndrome
Diffuse corneal clouding in siblings with fetal alcohol syndrome, 484

Filtering surgery
Late complications after glaucoma filtering surgery with adjunctive 5-fluorouracil, 506

Long-term visual outcome of ocular hypotension after thermosclerostomy, 603

Three-year follow-up of the Fluorouracil Filtering Surgery Study, 82

Fluorescein angiography
Fluorescein and indocyanine green angiographies of central serous choroidopathy by scanning laser ophthalmoscopy, 50

Fluorescein angiography in the diagnosis of giant cell arteritis, 57

Fluorouracil
Hypotonous maculopathy after trabeculectomy with subconjunctival 5-fluorouracil (correspondence), 546

Hypotonous maculopathy after trabeculectomy with subconjunctival 5-fluorouracil (correspondence), 547

Late complications after glaucoma filtering surgery with adjunctive 5-fluorouracil, 506

Three-year follow-up of the Fluorouracil Filtering Surgery Study, 82

Foscarnet
Intravitreal foscarnet for cytomegalovirus retinitis in a patient with acquired immunodeficiency syndrome (correspondence), 686

Transscleral iontophoresis of foscarnet, 748

Fundus
Fundus changes associated with congenital hypertrophy of the retinal pigment epithelium, 154

G

Gelsolin
Gelsolin immunoreactivity in corneal amyloid, wound healing, and macular and granular dystrophies, 644

Genetics
Clinical features of autosomal dominant retinitis pigmentosa with rhodopsin gene codon 17 mutation and retinal neovascularization in a Japanese patient, 168

Developmental genes and ocular malformation syndromes, 105

Ocular manifestations of the lacrimo-auriculo-dento-digital syndrome, 243

Ophthalmic manifestations of the chromosome 11q deletion syndrome (letter), 673

Visual prognosis in autosomal dominant optic atrophy (Kjer type), 360

Vogt-Koyanagi-Harada syndrome in patients with Cherokee Indian ancestry (correspondence), 688

Giant cell arteritis
Fluorescein angiography in the diagnosis of giant cell arteritis, 57

An unusual case of giant cell arteritis (letter), 393

Giant papillary conjunctivitis
Comparison of the clinical performance of the Acuvue disposable contact lens and CSI lens in patients with giant papillary conjunctivitis, 454

Meibomian gland function and giant papillary conjunctivitis (correspondence), 119

Meibomian gland function and giant papillary conjunctivitis (correspondence), 120

Glaucoma
Another reevaluation of combined cataract and glaucoma surgery, 806

Argon laser gonioplasty in the treatment of angle-closure glaucoma (correspondence), 399

Calcium channel blockers in the management of low-tension and open-angle glaucoma, 608

A clinicopathologic correlative study of noncontact transscleral Nd:YAG cyclophotocoagulation, 597

Corneal endothelial cell counts after Molteno implantation, 93

Follow-up of angle-closure glaucoma suspects, 338

Glaucoma in the immediate postoperative period after penetrating keratoplasty, 711

Late complications after glaucoma filtering surgery with adjunctive 5-fluorouracil, 506

Long-term visual outcome of ocular hypotension after thermosclerostomy, 603

Parapapillary chorioretinal atrophy in normal-pressure glaucoma, 501

Prevalence of pigment dispersion syndrome in a population undergoing glaucoma screening, 707

Risk of postoperative visual loss in advanced glaucoma, 332

Short-wavelength color visual fields in glaucoma suspects at risk, 225

Three-year follow-up of the Fluorouracil Filtering Surgery Study, 82

Glycerol
Visual loss after retrogasserian glycerol injection (letter), 396

Gonoiplasty
Argon laser gonioplasty in the treatment of angle-closure glaucoma (correspondence), 399

Graft
Computerized topographic analysis of the healing graft after penetrating keratoplasty for keratoconus, 209

Retrocorneal fibrous membranes in failed corneal grafts, 478

H

***Haemophilus* sp.**
Systemic antibiotic therapy for relapsing *Haemophilus influenzae* conjunctivitis (letter), 814

Hamartoma
Early manifestation of retinal hamartomas in tuberous sclerosis (letter), 539

Health care
Community care of corneal ulcers (correspondence), 402

Hemorrhage
Massive spontaneous subretinal hemorrhage from a choroidal metastasis (letter), 677

Vitreous hemorrhage and extracorporeal membrane oxygenation (letter), 391

Homocystinuria
Hyperhomocysteinemia in retinal artery and retinal vein occlusion, 162

Human immunodeficiency virus
Correlation between CD4+ counts and prevalence of cytomegalovirus retinitis and human immunodeficiency virus-related noninfectious retinal vasculopathy in patients with acquired immunodeficiency syndrome, 575

Glove perforations in ophthalmic surgery (correspondence), 266

Spontaneous ulcerative keratitis in immunocompromised patients, 202

Hyperoxia
Hyperoxia and transient resolution of vascular vasodilation and tortuosity in threshold retinopathy of prematurity (letter), 258

Hypertrophy
Fundus changes associated with congenital hypertrophy of the retinal pigment epithelium, 154

I

Indocyanine green
Fluorescein and indocyanine green angiographies of central serous choroidopathy by scanning laser ophthalmoscopy, 50

Indocyanine green choroidal videoangiography during induced intraocular hypertension (letter), 817

Infants
Development of object vision in infants with permanent cortical visual impairment (correspondence), 544

A newborn with posterior lenticonus (letter), 543

Inflammation
Effects of inflammation and surgery on amikacin levels in the vitreous cavity, 770

Insulin
Effect of insulin therapy on progression of retinopathy in noninsulin-dependent diabetes mellitus, 569

Interferon
Interferon alfa-2a in the treatment of subfoveal choroidal neovascularization, 563

Interleukin-2
Serum levels of interleukin-2 receptor in ocular Behçet's disease, 26

Intraocular lens
Aqueous humor protein and intraocular lens powers (letter), 116

Intraocular lens power calculations for multifocal intraocular lenses (correspondence), 269

Management of the posterior capsule during pediatric intraocular lens implantation, 722

The outgrowth of lens epithelial cells onto the anterior capsule after intraocular lens implantation (letter), 668

Progression of nonproliferative diabetic retinopathy and visual outcome after extracapsular cataract extraction and intraocular lens implantation (correspondence), 268

Progression of nonproliferative diabetic retinopathy and visual outcome after extracapsular cataract extraction and intraocular lens implantation (correspondence), 400

Progression of nonproliferative diabetic retinopathy and visual outcome after extracapsular cataract extraction and intraocular lens implantation (correspondence), 824

Retinal detachment as a potential hazard in surgical correction of severe myopia with phakic anterior chamber lenses, 145; correction, 831

Intraocular pressure

Intraocular pressure and retinal vascular changes during transient exposure to microgravity, 347

Iontophoresis

Transscleral iontophoresis of foscarnet, 748

Ischemia

HLA-A29 as a potential risk factor for nonarteritic anterior ischemic optic neuropathy (letter), 540

Ischemic optic neuropathy

The efficacy of optic nerve sheath decompression for anterior ischemic optic neuropathy and other optic neuropathies, 384; correction, 698

Fluorescein angiography in the diagnosis of giant cell arteritis, 57

J

Jackson, Edward

Traction retinal detachment. XLIX Edward Jackson Memorial Lecture, 1

Juvenile rheumatoid arthritis

Causes of reduced visual acuity on long-term follow-up after cataract extraction in patients with uveitis and juvenile rheumatoid arthritis (correspondence), 682

Causes of reduced visual acuity on long-term follow-up after cataract extraction in patients with uveitis and juvenile rheumatoid arthritis (correspondence), 826

K

Keratectomy

Clinical follow-up of phototherapeutic keratectomy for treatment of corneal opacities, 433

Corneal epithelial changes after excimer laser photorefractive keratectomy, 441

Corneal light scattering and visual performance in myopic individuals with spectacles, contact lenses, or excimer laser photorefractive keratectomy, 444

Excimer laser keratectomy after radial keratotomy, 634

Reduction of subepithelial haze after photorefractive keratectomy by cooling the cornea (letter), 820

Keratitis

Ciprofloxacin therapy of *Mycobacterium chelonae* keratitis (letter), 114

Ciprofloxacin-resistant bacterial keratitis (correspondence), 545

Combined treatment of *Acanthamoeba* keratitis with propamidine, neomycin, and polyhexamethylene biguanide, 466

Comparison of topical ciprofloxacin to conventional antibiotic therapy in the treatment of ulcerative keratitis, 471

Polymicrobial keratitis resulting from a dental pick injury (letter), 252

Spontaneous ulcerative keratitis in immunocompromised patients, 202

Keratoconjunctivitis sicca

Conjunctival biopsy in scleroderma and primary Sjögren's syndrome, 792

Dermatochalasis and dry eye, 216

Eosinophil granule major basic protein deposition in corneal ulcers associated with vernal keratoconjunctivitis, 640

Treatment of microsporidial keratoconjunctivitis with topical fumagillin, 293

Keratoconus

Clinical and histopathologic changes in the host cornea after epikeratoplasty for keratoconus (correspondence), 121

Computerized topographic analysis of the healing graft after penetrating keratoplasty for keratoconus, 209

Keratometry

Determination of corneal image-forming properties from corneal topography, 31

Determination of corneal image-forming properties from corneal topography (correspondence), 680

Keratopathy

Glutaraldehyde keratopathy (letter), 256

L

Lacrimal apparatus

Nasolacrimal duct obstruction and acute dacryocystitis associated with infectious mononucleosis Epstein-Barr virus (letter), 265

Rhabdomyosarcoma manifesting as acquired nasolacrimal duct obstruction, 239

Lacrimo-auriculo-dento-digital syndrome

Ocular manifestations of the lacrimo-auriculo-dento-digital syndrome, 243

Larsen's syndrome

Ocular findings in Larsen's syndrome (letter), 395

Laser

Argon laser gonioplasty in the treatment of angle-closure glaucoma (correspondence), 399

Clinical follow-up of phototherapeutic keratectomy for treatment of corneal opacities, 433

A clinicopathologic correlative study of noncontact transscleral Nd:YAG cyclophotocoagulation, 597

Corneal epithelial changes after excimer laser photorefractive keratectomy, 441

Corneal light scattering and visual performance in myopic individuals with spectacles, contact lenses, or excimer laser photorefractive keratectomy, 444

A diode laser mounted on a slit lamp for ophthalmic photodynamic applications of phthalocyanine (letter), 111

Drainage of subretinal fluid with the argon laser, 755

Excimer laser keratectomy after radial keratotomy, 634

The influence of exposure duration in transscleral Nd:YAG laser cyclophotocoagulation (correspondence), 684

Laser scleral buckling for retinal reattachment, 758

Picosecond neodymium:yttrium lithium fluoride laser sclerectomy, 221

Retinal vasoconstriction after laser treatment for diabetic macular edema, 64

Lens

Corneal light scattering and visual performance in myopic individuals with spectacles, contact lenses, or excimer laser photorefractive keratectomy, 444

A newborn with posterior lenticonus (letter), 543

The outgrowth of lens epithelial cells onto the anterior capsule after intraocular lens implantation (letter), 668

Transient posterior subcapsular lens opacities in diabetes mellitus, 234

Lenticonus

A newborn with posterior lenticonus (letter), 543

Lichen planus

Immunohistopathologic features and therapy of conjunctival lichen planus, 494

Lyme borreliosis

Birdshot chorioretinopathy and Lyme borreliosis, 149

Lymphocyte

Correlation between CD4+ counts and prevalence of cytomegalovirus retinitis and human immunodeficiency virus-related noninfectious retinal vasculopathy in patients with acquired immunodeficiency syndrome, 575

M

Macular degeneration

Age-related macular degeneration and choroidal neovascularization, 786

Macular dystrophy

Gelsolin immunoreactivity in corneal amyloid, wound healing, and macular and granular dystrophies, 644

Unesterified cholesterol in granular, lattice, and macular dystrophies (letter), 112

Maculopathy

Hypotonous maculopathy after trabeculectomy with subconjunctival 5-fluorouracil (correspondence), 546

Hypotonous maculopathy after trabeculectomy with subconjunctival 5-fluorouracil (correspondence), 547

Magnetic resonance imaging

Diagnostic misinterpretation of fat suppression orbital magnetic resonance scanning (letter), 262

Gadolinium magnetic resonance imaging dacryocystography, 738

Meetings, Conferences, Symposia

Ocular Microbiology and Immunology Group—26th Annual Meeting (WILHELMUS, K. R.), 694

Meibomian gland

Meibomian gland function and giant papillary conjunctivitis (correspondence), 119

Meibomian gland function and giant papillary conjunctivitis (correspondence), 120

Melanoma

Deoxyribonucleic acid ploidy studies in choroidal melanomas, 376

Paraneoplastic retinopathy in malignant melanoma (letter), 390

Molteno implant

Corneal endothelial cell counts after Molteno implantation, 93

***Moraxella* sp.**

Endophthalmitis caused by β-lactamase-positive *Moraxella nonliquefaciens* (letter), 674

Muscle

Early revision in the office for adults after unsatisfactory blepharoptosis correction, 68

Recession of both horizontal recti muscles in Duane's retraction syndrome with elevation and depression of the adducted eye (correspondence), 685

Superior rectus muscle overaction after cataract extraction (correspondence), 126

***Mycobacterium* sp.**

Ciprofloxacin therapy of *Mycobacterium chelonae* keratitis (letter), 114

Mydriasis

Postoperative mydriasis after repair of orbital floor fracture, 372

Transpupillary continuous suture for intraoperative mydriasis (letter), 670

Myo-neuro-gastrointestinal encephalopathy syndrome

Multiple mitochondrial DNA deletions in myo-neuro-gastrointestinal encephalopathy syndrome (letter), 108

Myopia

A biometric study of ocular changes during accommodation, 76

A biometric study of ocular changes during accommodation (correspondence), 682

Corneal light scattering and visual performance in myopic individuals with spectacles, contact lenses, or excimer laser photorefractive keratectomy, 444

Excimer laser keratectomy after radial keratotomy, 634

Radial keratotomy for intolerable myopia after penetrating keratoplasty, 327

Regression of retinoblastoma after plaque radiotherapy, 181; correction, 842

Retinal detachment as a potential hazard in surgical correction of severe myopia with phakic anterior chamber lenses, 145; correction, 831

Transient myopia, angle-closure glaucoma, and choroidal detachment after oral acetazolamide (letter), 813

N

Neovascularization

Age-related macular degeneration and choroidal neovascularization, 786

Clinical features of autosomal dominant retinitis pigmentosa with rhodopsin gene codon 17 mutation and retinal neovascularization in a Japanese patient, 168

Interferon alfa-2a in the treatment of subfoveal choroidal neovascularization, 563

Nonproliferative diabetic retinopathy

Progression of nonproliferative diabetic retinopathy and visual outcome after extracapsular cataract extraction and intraocular lens implantation (correspondence), 824

O

Occlusion

Hyperhomocysteinemia in retinal artery and retinal vein occlusion, 162

Ocular toxoplasmosis

Progressive ocular toxoplasmosis in patients with acquired immunodeficiency syndrome, 742

Oculomotor nerve

Distinguishing compensatory head turn from gaze palsy in children with unilateral oculomotor or abducens nerve paresis (letter), 116

Optic atrophy

Visual prognosis in autosomal dominant optic atrophy (Kjer type), 360

Optic disk

Unilateral optic disk edema and a contralateral temporal fossa mass (letter), 261

Optic nerve

Early manifestation of retinal hamartomas in tuberous sclerosis (letter), 539

The efficacy of optic nerve sheath decompression for anterior ischemic optic neuropathy and other optic neuropathies, 384; correction, 698

Optic neuropathy

HLA-A29 as a potential risk factor for nonarteritic anterior ischemic optic neuropathy (letter), 540

Orbit

Diagnostic misinterpretation of fat suppression orbital magnetic resonance scanning (letter), 262

Metastatic renal cell carcinoma manifesting as an orbital mass (letter), 542

Orbital cellulitis caused by *Eikenella corrodens* (correspondence), 398

Orbital meningoencephalocele manifesting as a conjunctival mass, 46

Orbital metastasis from medullary carcinoma of the thyroid (letter), 394

Postoperative mydriasis after repair of orbital floor fracture, 372

P

Palsy

Distinguishing compensatory head turn from gaze palsy in children with unilateral oculomotor or abducens nerve paresis (letter), 116

Penetrating keratoplasty

Bacterial and fungal endophthalmitis after penetrating keratoplasty, 309

Bacterial and fungal endophthalmitis after penetrating keratoplasty—correction (correspondence), 548

Computerized topographic analysis of the healing graft after penetrating keratoplasty for keratoconus, 209

Glaucoma in the immediate postoperative period after penetrating keratoplasty, 711

Postkeratoplasty astigmatism with single running suture or interrupted sutures, 715

Radial keratotomy for intolerable myopia after penetrating keratoplasty, 327

Results of penetrating keratoplasty in aniridia, 317

Visual outcome after penetrating keratoplasty with double continuous or combined interrupted and continuous suture closure (correspondence), 123

***Penicillium* sp.**

Fungal invasion of seven hydrophilic contact lenses, 460

Pentoxifylline

The effect of pentoxifylline on retinal capillary blood flow velocity and whole blood viscosity, 775

Perfluorodecalin

Echographic signs of perfluorodecalin (letter), 679

Perimetry

The relationship between static perimetry and the relative afferent pupillary defect, 351

Perspectives

Another reevaluation of combined cataract and glaucoma surgery, 806

Developmental genes and ocular malformation syndromes, 105

The efficacy of optic nerve sheath decompression for anterior ischemic optic neuropathy and other optic neuropathies, 384; correction, 698

Phacoemulsification
A comparison of corneal endothelial changes after use of Healon or Viscoat during phacoemulsification, 188

Phenylephrine
The effect of reduced eyedrop size and eyelid closure on the therapeutic index of phenylephrine, 357

Pigment dispersion syndrome
Prevalence of pigment dispersion syndrome in a population undergoing glaucoma screening, 707

Proliferative vitreoretinopathy
Subconjunctival silicone oil after vitreoretinal surgery (letter), 109

Pseudophakia
Accurate ultrasonic biometry in pseudophakia (letter), 536

Pupil
The relationship between static perimetry and the relative afferent pupillary defect, 351

Transpupillary continuous suture for intraoperative mydriasis (letter), 670

R

Radial keratotomy
Excimer laser keratectomy after radial keratotomy, 634

Radial keratotomy for intolerable myopia after penetrating keratoplasty, 327

Refractive changes with increasing altitude after radial keratotomy (letter), 821

Radiation therapy
Regression of retinoblastoma after plaque radiotherapy, 181; correction, 842

Retina
Dystrophic calcification of silicone sceral buckling implant materials, 524

Early manifestation of retinal hamartomas in tuberous sclerosis (letter), 539

The effect of pentoxifylline on retinal capillary blood flow velocity and whole blood viscosity, 775

Exudative retinal detachment and retinal folds after trabeculectomy (letter), 537

Fluorescein and indocyanine green angiographies of central serous choroidopathy by scanning laser ophthalmoscopy, 50

Hyperhomocysteinemia in retinal artery and retinal vein occlusion, 162

An illuminated cannula for subretinal operations (letter), 816

Intraocular pressure and retinal vascular changes during transient exposure to microgravity, 347

Massive spontaneous subretinal hemorrhage from a choroidal metastasis (letter), 677

Parapapillary chorioretinal atrophy in normal-pressure glaucoma, 501

Reduction of subepithelial haze after photorefractive keratectomy by cooling the cornea (letter), 820

Retinal vasoconstriction after laser treatment for diabetic macular edema, 64

Transesophageal echocardiography in the diagnosis of branch retinal artery obstruction, 653

Retinal detachment
Drainage of subretinal fluid with the argon laser, 755

Exudative retinal detachment and retinal folds after trabeculectomy (letter), 537

Laser scleral buckling for retinal reattachment, 758

Photoreceptor outer segments in the aqueous humor of patients with atopic dermatitis and retinal detachment, 21

Regression of retinoblastoma after plaque radiotherapy, 181; correction, 842

Retinal detachment as a potential hazard in surgical correction of severe myopia with phakic anterior chamber lenses, 145

Subconjunctival silicone oil after vitreoretinal surgery (letter), 109

Traction retinal detachment. XLIX Edward Jackson Memorial Lecture, 1

Retinal pigment epithelium
Fundus changes associated with congenital hypertrophy of the retinal pigment epithelium, 154

Retinitis pigmentosa
Clinical features of autosomal dominant retinitis pigmentosa with rhodopsin gene codon 17 mutation and retinal neovascularization in a Japanese patient, 168

Retinoblastoma
Regression of retinoblastoma after plaque radiotherapy, 181; correction, 842

Retinopathy
Effect of insulin therapy on progression of retinopathy in noninsulin-dependent diabetes mellitus, 569

Paraneoplastic retinopathy in malignant melanoma (letter), 390

Retinopathy of prematurity
Hyperoxia and transient resolution of vascular vasodilation and tortuosity in threshold retinopathy of prematurity (letter), 258

Rhabdomyosarcoma
Rhabdomyosarcoma manifesting as acquired nasolacrimal duct obstruction, 239

Rhodopsin
Clinical features of autosomal dominant retinitis pigmentosa with rhodopsin gene codon 17 mutation and retinal neovascularization in a Japanese patient, 168

S

Sclera
Clinical predictors of scleral rupture after blunt ocular trauma, 530
Conjunctival biopsy in scleroderma and primary Sjögren's syndrome, 792
Partial-thickness scleral-patch graft in revision of trabeculectomy (letter), 818
Transscleral iontophoresis of foscarnet, 748

Scleral buckle
Dystrophic calcification of silicone sceral buckling implant materials, 524

Sclerectomy
Picosecond neodymium:yttrium lithium fluoride laser sclerectomy, 221

Scleritis
Infectious scleritis after a diabetic foot ulcer (letter), 254

Sjögren's syndrome
Conjunctival biopsy in scleroderma and primary Sjögren's syndrome, 792

Sodium hyaluronate
A comparison of corneal endothelial changes after use of Healon or Viscoat during phacoemulsification, 188

***Staphylococcus* sp.**
Combination antibiotic supplementation of corneal storage medium, 299

Strabismus
Comparison of time required for strabismus correction by using the microscope or loupes (letter), 672
Vagal responses to adjustable sutures in strabismus correction (correspondence), 124

***Streptococcus* sp.**
Combination antibiotic supplementation of corneal storage medium, 299

Suture
Postkeratoplasty astigmatism with single running suture or interrupted sutures, 715
Transpupillary continuous suture for intraoperative mydriasis (letter), 670
Vagal responses to adjustable sutures in strabismus correction (correspondence), 124
Visual outcome after penetrating keratoplasty with double continuous or combined interrupted and continuous suture closure (correspondence), 123

T

T cell
Serum levels of interleukin-2 receptor in ocular Behçet's disease, 26

Takayasu's disease
Ocular complications of Takayasu's disease in a hispanic woman (letter), 676

Tarsorrhaphy
Management of unsuccessful tarsorrhaphy separation with polytetrafluoroethylene (Gor-Tex) stent (letter), 264

Thermosclerostomy
Long-term visual outcome of ocular hypotension after thermosclerostomy, 603

Thyroid
Orbital metastasis from medullary carcinoma of the thyroid (letter), 394

Tonometry
The effect of corneal thickness on applanation tonometry, 592

Toxoplasmosis
Therapy for ocular toxoplasmosis, 517

Trabeculectomy
Exudative retinal detachment and retinal folds after trabeculectomy (letter), 537
Hypotonous maculopathy after trabeculectomy with subconjunctival 5-fluorouracil (correspondence), 546
Hypotonous maculopathy after trabeculectomy with subconjunctival 5-fluorouracil (correspondence), 547
Partial-thickness scleral-patch graft in revision of trabeculectomy (letter), 818

Trauma
Clinical predictors of scleral rupture after blunt ocular trauma, 530

Tuberous sclerosis
Early manifestation of retinal hamartomas in tuberous sclerosis (letter), 539

Tumor

Neuro-ophthalmologic findings in chordoma and chondrosarcoma of the skull base, 97
Nucleolar organizer regions in determining malignancy of pigmented conjunctival lesions, 800

U

Ultrasound
Velocity of ophthalmic arterial flow recorded by Doppler ultrasound in normal subjects, 174

Uvea
Antibiotic-resistant tuberculous choroiditis (letter), 259

Uveitis
Causes of reduced visual acuity on long-term follow-up after cataract extraction in patients with uveitis and juvenile rheumatoid arthritis (correspondence), 682
Causes of reduced visual acuity on long-term follow-up after cataract extraction in patients with uveitis and juvenile rheumatoid arthritis (correspondence), 826
A clinical trial of FK506 in refractory uveitis, 763

A masked, randomized, dose-response study between cyclosporine A and G in the treatment of sight-threatening uveitis of noninfectious origin, 583

V

Vein occlusion
Hyperhomocysteinemia in retinal artery and retinal vein occlusion, 162

Videoangiography
Indocyanine green choroidal videoangiography during induced intraocular hypertension (letter), 817

Visual acuity
Causes of reduced visual acuity on long-term follow-up after cataract extraction in patients with uveitis and juvenile rheumatoid arthritis (correspondence), 682

Causes of reduced visual acuity on long-term follow-up after cataract extraction in patients with uveitis and juvenile rheumatoid arthritis (correspondence), 826

Visual field
Short-wavelength color visual fields in glaucoma suspects at risk, 225

Visual impairment
Development of object vision in infants with permanent cortical visual impairment (correspondence), 544

Visual loss
Risk of postoperative visual loss in advanced glaucoma, 332

Visual loss after retrogasserian glycerol injection (letter), 396

Visual loss complicating OKT3 monoclonal antibody therapy, 781

Vitreous
Effects of inflammation and surgery on amikacin levels in the vitreous cavity, 770

The penetration of oral ciprofloxacin into the aqueous humor, vitreous, and subretinal fluid of humans, 623

Vitreous hemorrhage and extracorporeal membrane oxygenation (letter), 391

ABSTRACT INDEX

A

Accommodation
Isoflurophate (floropryl) ointment as the initial treatment of various esotropias. A survey and a review of 279 cases, 699

Acetazolamide
Acetazolamide but not timolol lowers aqueous humor flow in sleeping humans, 275

Acquired immunodeficiency syndrome
High dose intravitreal ganciclovir in the treatment of cytomegalovirus retinitis, 410

Risk of developing cytomegalovirus retinitis in persons infected with the human immunodeficiency virus, 410

Aging
Calcification of the trochlear apparatus of the orbit. CT appearance and association with diabetes and age, 559

Neurocognitive effects of aluminum, 279

Visual hallucinations in patients with macular degeneration, 558

Aluminum
Neurocognitive effects of aluminum, 279

Amaurosis fugax
Amaurosis fugax in young people, 411

Anesthesia
Brain-stem anesthesia as a complication of regional anesthesia for ophthalmic surgery, 553

Intravenous sedation for ocular surgery under local anaesthesia, 134

Magnetic resonance imaging of the optic nerve in extremes of gaze. Implications for the positioning of the globe for retrobulbar anaesthesia, 553

A new local anaesthesia technique for cataract extraction by one quadrant sub-Tenon's infiltration, 408

Preoperative drinking does not affect gastric contents, 703

Antigen
Double-blind pilot trial of oral tolerization with myelin antigens in multiple sclerosis, 834

Aqueous humor
Acetazolamide but not timolol lowers aqueous humor flow in sleeping humans, 275

Artery
Intermittent downbeat nystagmus due to vertebral artery compression, 700

Arthritis
Chlamydial associated syndrome of arthritis and eye involvement in young children, 554

Astigmatism
Calculating the surgically induced refractive change following ocular surgery, 133

Atopy
Is atopy a risk factor for the use of contact lenses?, 134

Atropine
Atropine reduces experimental myopia and eye enlargement via a nonaccommodative mechanism, 698

B

Balloon
Complete obstruction of the nasolacrimal system. Part I. Treatment with balloon dilation, 837

Blepharoplasty
Eyelid level after lower lid blepharoplasty with skin excision. The relationship of intraoperative and postoperative lid levels, 137

Blindness
Legal blindness among 10-year-old children in metropolitan Atlanta. Prevalence, 1985 to 1987, 275

Blood-brain barrier
Breaching the blood-brain barrier, 557

Botulinum toxin
Effectiveness of botulinum toxin administered to abolish acquired nystagmus, 412

Brown's syndrome
Acquired Brown's syndrome in a patient with systemic lupus erythematosus, 699

C

Capsule
Posterior capsule opacification, 133

Carcinoma
Cutaneous micrographic surgery. Mohs procedure, 137

Cardiopulmonary arrest
Cardiopulmonary resuscitation, 138

Cataract
Antiplatelet therapy and cataract surgery, 274

Calculating the surgically induced refractive change following ocular surgery, 133

Intra-ocular lens implantation during cataract surgery in Nepal, 833

Loop memory of posterior chamber intraocular lenses of various sizes, designs, and loop materials, 274

A new local anaesthesia technique for cataract extraction by one quadrant sub-Tenon's infiltration, 408

Outcome of treatment for bilateral congenital cataracts, 133

Children
Chlamydial associated syndrome of arthritis and eye involvement in young children, 554
Emergence of optic pathway gliomas in children with neurofibromatosis type 1 after normal neuroimaging results, 276
Latex allergy. What do we know?, 278
Legal blindness among 10-year-old children in metropolitan Atlanta. Prevalence, 1985 to 1987, 275
Optic glioma in children. Surveillance, resection, or irradiation?, 836
Screening for fungal endophthalmitis in children at risk, 135

***Chlamydia* sp.**
Chlamydial associated syndrome of arthritis and eye involvement in young children, 554
Periodic health examination, 1992 update. 4. Prophylaxis for gonococcal and chlamydial ophthalmia neonatorum, 553

Cholesterol
Cholesterol embolism. An underdiagnosed clinical entity, 411

Choroid
Episcleral plaque radiotherapy in the treatment of uveal melanomas, 278

Choroideremia
Retinal degeneration in choroideremia. Deficiency of Rab geranylgeranyl transferase, 558

Collagen shield
Collagen shields. Efficacy, safety and comfort in the treatment of human traumatic corneal abrasion and effect on vision in healthy eyes, 274

Color vision
Subclinical impairment of colour vision among workers exposed to styrene, 279

Conjunctiva
Limbus-based versus fornix-based conjunctival flap in glaucoma filtering surgery, 409
Three cases of primary acquired melanosis of the conjunctiva as a manifestation of the atypical mole syndrome, 701

Contact lens
A telescopic system for distance consisting of contact lens and spectacle lens for low vision patients, 276

Convergence
Isoflurophate (floropryl) ointment as the initial treatment of various esotropias. A survey and a review of 279 cases, 699

Cornea
Collagen shields. Efficacy, safety and comfort in the treatment of human traumatic corneal abrasion and effect on vision in healthy eyes, 274
Corneal topography following excimer photorefractive keratectomy for myopia, 832
Cyclosporine A for the treatment of necrotizing scleritis and corneal melting in patients with rheumatoid arthritis, 134
Increased corneal temperature caused by MR imaging of the eye with a dedicated local coil, 555
Laser photocoagulation for corneal stromal vascularization, 832
Q-switched Nd;YAG laser treatment for corneal neovascularization, 408

Corneoscleral limbus
Limbus-based versus fornix-based conjunctival flap in glaucoma filtering surgery, 409

Coronal flap
The coronal approach. Anatomic and technical considerations and morbidity, 837

Corticosteroid
Breaching the blood-brain barrier, 557
Intravitreal corticosteroids as an adjunct in the treatment of bacterial and fungal endophthalmitis, 557

Cranial nerve
MRA delineation of the vertebral-basilar system in patients with hemifacial spasm and trigeminal neuralgia, 700

Cromolyn sodium
Adverse reaction to ocular cromolyn sodium, 554

Cyclosporine
Cyclosporine A for the treatment of necrotizing scleritis and corneal melting in patients with rheumatoid arthritis, 134
Renal function and blood pressure in patients receiving long-term, low-dose cyclosporine therapy for idiopathic autoimmune uveitis, 135

Cytomegalovirus retinitis
High dose intravitreal ganciclovir in the treatment of cytomegalovirus retinitis, 410
Risk of developing cytomegalovirus retinitis in persons infected with the human immunodeficiency virus, 410

D

Diabetes mellitus
Calcification of the trochlear apparatus of the orbit. CT appearance and association with diabetes and age, 559
Elevated serum sialic acid concentration in NIDDM and its relationship to blood pressure and retinopathy, 701
